- ✓ An example of how this piece of data is provided in a papiNet document:

```
<SafetyAndEnvironmentalInformation SafetyAndEnvironmentalType="Deforestation" Agency="EU">
   <SafetyAndEnvironmentalReferenceInfo>
      <SafetyAndEnvironmentalReferenceIDSafetyAndEnvironmentalReferenceIDType="EUDRDueDiligenceStatementReferenceNumber">24FR1234567890</SafetyAndEnvironmentalReferenceID>

   </SafetyAndEnvironmentalReferenceInfo>
</SafetyAndEnvironmentalInformation>
```

Design of SafetyAndEnvironmentalReferenceSubInfo

The EUDRDueDiligenceStatementVerificationNumber may in papiNet documents only be provided along with the reference number of the same due diligence statement.

- ✓ Has been included in papiNet e-documents since schema Build 20241010 published October 2024.

Schema design of Product with a Harmonised System code

ClassificationCodeType = HarmonisedSystemCode

Do not include any Agency or ISO Country Code.

Communication of Deforestation Not Being Applicable

- ✓ The enumeration DeforestationNotApplicable of attribute SafetyAndEnvironmentalType can be provided in a document to communicate that a "Regulation for prevention of deforestation is not applicable"

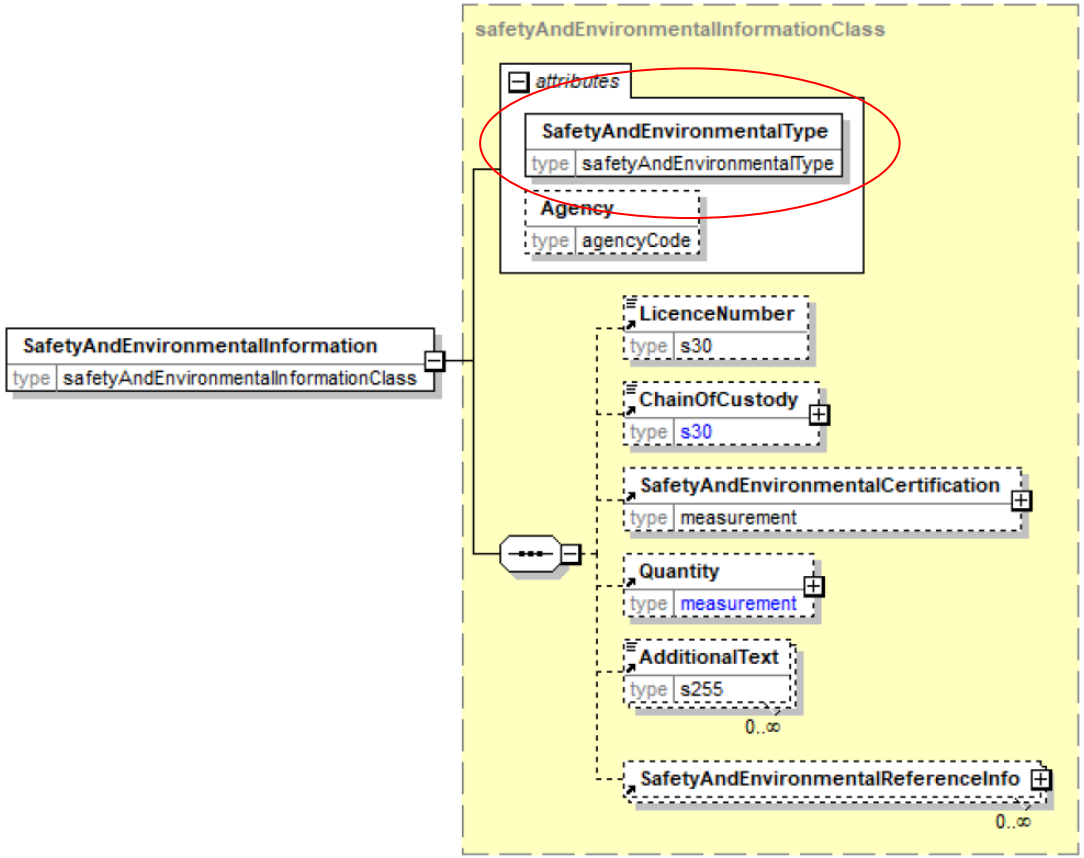

- ✓ Has been included in papiNet e-documents since schema Build 20241010 published October 2024.

- ✓ As some examples of usage, it may be used in business cases when
  1. a transaction is not subject to any law regulating prevention of deforestation or
  2. when a Product is not a relevant product according to ANNEX I of the EUDR or
  3. when the timber or timber product was produced before a certain date.

DeforestationNotApplicable in the schema design

SafetyAndEnvironmentalType = DeforestationNotApplicable, without any Agency

This is the only thing to include in a SafetyAndEnvironmentalInformation, which is used to communicate that a ”regulation for prevention of deforestation is not applicable.”

Sample usage of DeforestationNotApplicable in a SafetyAndEnvironmentalInformation

- ✓ It is provided in a separate SafetyAndEnvironmentInformation element, if required.
- ✓ One may optionally enter a text in element AdditionalText to communicate why the EUDR or other Regulation for prevention of deforestation is not applicable

```
<SafetyAndEnvironmentalInformation SafetyAndEnvironmentalType="DeforestationNotApplicable">
   <AdditionalText>The delivery includes no ”Relevant Product” as defined in the EUDR.</AdditionalText>
   <!-- N.B. The element SafetyAndEnvironmentalInformation may in its optional element
AdditionalText provide a text explaining WHY a regulation of deforestation is not applicable. -->
</SafetyAndEnvironmentalInformation>
```
